UNIVERSITY OF MYSORE.

Notification No. 26154, *dated the* 15*th June* 1929.

The following is the revised detailed syllabus in Geometry (Theory and Practical) for the Intermediate Examination in Arts and the Intermediate Examination in Science, as passed by the Senate and sanctioned by Government in their order No. D. 12801—Uni. 424-28-2, dated the 1st June 1929.

Intermediate Examination in Arts.

MATHEMATICS.

(*c*) GEOMETRY.

(*i*) *Theorems in plane Geometry* (*Detailed syllabus*).

1. Geometrical Theorems corresponding to the following identities :—

$$K\ (a+b+c\ldots\ldots)=Ka\,Kb+Kc\ldots\ldots$$
$$(a\pm b)^2=a^2\pm 2ab+b^2$$
$$a^2-b^2=(a+b)\ (a-b)$$
$$(a+b)^2-(a-b)^2=4\,ab$$
$$(a+b)^2+(a-b)^2=2\ (a^2+b^2)$$

2. The square on a side of a tringle is greater than, equal to, or less than, the sum of the squares on the other two sides, according as the angle contained by these two sides is obtuse, right, or acute. The difference in the case of inequality is twice the rectangle concontained by one of the two sides and the projection of it on the other.

3. If D is a point in the side BC of a triangle such that $BD=\frac{1}{n}BC$,

$$\text{then} \int (n-1)\ AB^2+AC^2-n.\ AD^2+\ (1=\frac{1}{n})\ BC^2.$$

4. If two chords of a circle cut one another, the rectangle contained by the segments of the one is equal to the rectangle contained by the segments of the other; and conversely if two straight lines cut one another so that the rectangle contained by the segments of the one is equal to the rectangle contained by the segments of the other, the four extremities of the straight lines are concyclic.

5. If from a point without a circle a secant and a tangent are drawn to the circle, the rectangle contained by the whole secant and its segment external to the circle is equal to the square on the tangent.

6. If from any point without a circle two straight lines are drawn one of which cuts the circle and the other meets it, and if the rectangle contained by the whole secant and its part external to the circle equals the square on the line which meets the circle, this line is a tangent to the circle.

7. Definition and elementary theorems connecting antecedents and consequents.

8. A given straight line can be divided internally or externally in a given ratio at one and only one point.

9. A straight line drawn parallel to one side of a triangle cuts the other two sides produced (if necessary) proportionally; and the converse.

10. If the vertical angle of a triangle is bisected internally or externally, the bisector divides the base internally or externally into segments which have the same ratio as the other sides of the triangle; and the converse.

11. In equal circles, angles, whether at the centres or at the circumferences, have the same ratio as the arcs on which they stand.

12. Triangles and parallelograms having equal altitudes are as their bases.

13. If two triangles are equiangular, their corresponding sides are proportionals and the converse.

14. If two triangles have one angle of the one equal to one angle of the other and the sides about the equal angles proportional, the triangles are similar.

15. Two triangles are similar, if the sides of the one are respectively parallel or perpendicular to the sides of the other.

16. If two triangles have two sides of the one proportional to two sides of the other and an angle in each opposite one corresponding pair of these sides equal, the angles opposite the other pair are either equal or supplementary.

17. If from the right angle A of a right-angled triangle A B C, A D is drawn perpendicular to B C, then (i) A D is the mean proportional between B D and D C.; (ii) B A is the mean proportional between B D and B C; (iii) C A is the mean proportional between C D and C B.

18. If two triangles are similar, their corresponding lines (such as medians, altitudes, inradii, circumradii, etc.) are proportional.

19. If two triangles have one angle of the one equal to one angle of the other, their areas are proportional to the rectangles contained by the sides about these equal angles. Similarly for parallelograms having one angle of the one equal to one angle of the other.

20. Similar triangles are to one another as the squares on their corresponding sides.

21. Two similar polygons can be divided into the same number of similar triangles similarly placed ; and the converse.

22. The perimeters of two similar polygons are to each other as their corresponding sides and their areas are proportional to the squares on corresponding sides.

23. In a right-angled triangle, any rectilineal figure described on the hypotenuse is equal to the sum of the similar and similarly described figures on the other two sides.

24. If four straight lines are proportional and a pair of similar rectilineal figures are similarly described on the first and the second and also a pair of similar rectilineal figures are similarly described on the third and the fourth, the figures are proportional.

25. If the vertical angle of a triangle is bisected internally by a straight line which cuts the base, the rectangle contained by the sides of the triangle equals the rectangle contained by the segments of the base together with the square on the straight line which bisects the angle.

26. If from the vertical angle of a triangle a straight line is drawn perpendicular to the base, the rectangle contained by the sides of the triangle equals the rectangle contained by the perpendicular and the diameter of the circumcircle.

27. The rectangle contained by the diagonals of a cyclic quadrilateral is equal to the sum of the two rectangles contained by its opposite sides.

28. The perpendiculars from the vertices of a triangle on the opposite sides meet in a point called the orthocentre and the distance of each vertex from the orthocentre is twice the perpendicular distance of the circumcentre from the side opposite the vertex.

29. The three medians of a triangle meet in a point and this point is a point of trisection of each median and also of the line joining the circumcentre to the orthocentre.

30. The circle through the middle point of the sides of a triangle passes also through the feet of the perpendiculars of the triangle and through the middle points of the three straight lines joining the orthocentre to the vertices of the triangle.

31. If a perpendicular drawn from the vertex of a triangle is produced to meet the circumcircle, the distance of this point of intersection from the base is equal to the distance of the orthocentre of the triangle from the base.

32. The feet of the perpendiculars drawn on the sides of a triangle from any point on the circumcircle of the triangle are collinear.

(*ii*) *Solid Geometry.*

1. Any two straight lines which intersect each other, or are parallel, lie in a plane.

2. If a straight line is perpendicular to each of two intersecting straight lines at their point of intersection, it is perpendicular to the plane containing them.

3. If a straight line is perpendicular to each of three concurrent straight lines at their point of intersection, the three straight lines are in one plane.

4. Two straight lines perpendicular to the same plane are parallel ; and the converse.

5. If two parallel planes are cut by a third plane, the lines of intersection are parallel.

6. If two straight lines are cut by parallel planes, they are cut proportionally.

7. If two intersecting planes are both perpendicular to a third plane, the common section of the first two is perpendicular to the third plane.

8. A straight line can be drawn perpendicular to each of two straight lines in space which do not intersect and are not parallel, and this straight line is the shortest distance between them.

9. If a solid angle is contained by three plane angles, any two them are together greater than the third.

10. The plane angles which contain a solid angle are together less than four right angles.

(*iii*) *Practical Geometry.*

Construction of the circumscribed, inscribed and escribed circles of a triangle. Medial section. Construction of regular polygons. Division of finite straight lines in a given ratio and construction of similar figures.

Construction of triangles from given data and division of triangles, quadrilaterals and polygons in a given ratio. Areas of polygons and problems relating thereto. Simple calculations relating to regular solids.

(*iv*) *Analytical Geometry.*

The point and the straight line.

SUBJECT.—Instructions regarding the serial numbering of vouchers in Treasuries.

COMPTROLLER'S OFFICE, BANGALORE.

Circular No. 158—*T A D B, dated 24th July* 1929.

To—All Treasury Officers.

According to the instructions contained in this office letter No. 355—T A D B, dated 1st September 1926, regarding the serial numbering of all vouchers sent by the treasury with each list of payments, every voucher should bear two voucher numbers (one to be given by the paying treasury and the other representing District Serial number to be given by the District Treasury). A District Serial numbering is necessary as the unit of accounts is the District and distinguishing numbers for the identification of each voucher are necessary.

2. It has come to the notice of this office that in some cases the numbering of vouchers is not properly done both by the paying treasury and the District Treasury. Sometimes the paying treasury notes its voucher numbers in the space allotted for the District Serial number and the District Serial number is given in some other space. In such cases, the Audit Office feels it difficult to easily find out the District Serial number. The numbering of all vouchers anew at the District Treasury involves extra work, which if it is possible to do so, has to be avoided. All the District Treasury Officers are also of this opinion and are agreeable to the suggestion of providing for distinctive numbering in Taluks and doing away with renumbering in Districts.

3. The following procedure is accordingly laid down for adoption from 1st September 1929, in accordance with the suggestion given by almost all the District Treasuries.—

(1) The vouchers of the District Treasury proper will be numbered serially as at present. But the Taluk Treasury Vouchers will in addition to the serial numbers beginning from units have a distinguishing letter of the alphabet inserted before the voucher number to indicate the particular Taluk as detailed in the annexed list. This indicative letter will be entered in all Records and Accounts in which voucher numbers are to be entered. Thus if 'C' is the number given to Arkalgud Taluk Treasury in Hassan District, its vouchers will bear Nos. 'C. 1.' 'C. 2.' and 'C.' 3.' and so on in all Records and Accounts while the Nos. 1 2 and 3 without any distinctive letters prefixed will relate to the District Treasury.

(2) This numbering will apply to all vouchers, whether charged in the lists of payments or other schedules, there being separate monthly serial numbers for each prescribed subsidiary register.

(3) In the abstract of payments of the whole District in respect of each Subsidiary Register prepared by the District Treasury, the total number of vouchers for the district will be worked out as shown below :—

Total number of vouchers	Numbers		Names of Treasuries	Amount
	From	To		
100 ...	1	100	District Treasury	
99 ...	A1	A99	Taluk Treasury A	
82 ...	B1	B82	Do B and so on	
Total ...	...	...		

(4) The treasuries should always bear in mind the special distinguishing Alphabetical letter assigned to them and see that no omissions or mistakes are allowed to occur.

(5) The District Treasury while working out the total for the district, should post the transactions of several treasuries in the order in which they appear in the enclosed list.

(6) Though the renumbering of vouchers by the District Treasury is discontinued, the check of the Subsidiary Registers of Taluk Treasuries by the District Treasury prescribed in Article 367 M. C. A. C. Volume II should be continued to be exercised and it should be seen that no chellan or voucher is missing and that the classification is correctly made.

Comptroller.

SUBJECT.—Instructions regarding the serial numbering of vouchers in Treasuries.

COMPTROLLER'S OFFICE, BANGALORE.

Circular No. 158—*T A D B, dated* 24*th July* 1929.

To—All Treasury Officers.

According to the instructions contained in this office letter No. 355—T A D B, dated 1st September 1926, regarding the serial numbering of all vouchers sent by the treasury with each list of payments, every voucher should bear two voucher numbers (one to be given by the paying treasury and the other representing District Serial number to be given by the District Treasury). A District Serial numbering is necessary as the unit of accounts is the District and distinguishing numbers for the identification of each voucher are necessary.

2. It has come to the notice of this office that in some cases the numbering of vouchers is not properly done both by the paying treasury and the District Treasury. Sometimes the paying treasury notes its voucher numbers in the space allotted for the District Serial number and the District Serial number is given in some other space. In such cases, the Audit Office feels it difficult to easily find out the District Serial number. The numbering of all vouchers anew at the District Treasury involves extra work, which if it is possible to do so, has to be avoided. All the District Treasury Officers are also of this opinion and are agreeable to the suggestion of providing for distinctive numbering in Taluks and doing away with renumbering in Districts.

3. The following procedure is accordingly laid down for adoption from 1st September 1929, in accordance with the suggestion given by almost all the District Treasuries.—

(1) The vouchers of the District Treasury proper will be numbered serially as at present. But the Taluk Treasury Vouchers will in addition to the serial numbers beginning from units have a distinguishing letter of the alphabet inserted before the voucher number to indicate the particular Taluk as detailed in the annexed list. This indicative letter will be entered in all Records and Accounts in which voucher numbers are to be entered. Thus if 'C' is the number given to Arkalgud Taluk Treasury in Hassan District, its vouchers will bear Nos. 'C. 1.' 'C. 2.' and 'C.' 3.' and so on in all Records and Accounts while the Nos. 1, 2 and 3 without any distinctive letters prefixed will relate to the District Treasury.

(2) This numbering will apply to all vouchers, whether charged in the lists of payments or other schedules, there being separate monthly serial numbers for each prescribed subsidiary register.

(3) In the abstract of payments of the whole District in respect of each Subsidiary Register prepared by the District Treasury, the total number of vouchers for the district will be worked out as shown below :—

Total number of vouchers	Numbers		Names of Treasuries	Amount
	From	To		
100 ...	1	100	District Treasury	
99 ..	A1	A99	Taluk Treasury A	
82 ...	B1	B82	Do B and so on	
Total ...	...	...		

(4) The treasuries should always bear in mind the special distinguishing Alphabetical letter assigned to them and see that no omissions or mistakes are allowed to occur.

(5) The District Treasury while working out the total for the district, should post the transactions of several treasuries in the order in which they appear in the enclosed list.

(6) Though the renumbering of vouchers by the District Treasury is discontinued, the check of the Subsidiary Registers of Taluk Treasuries by the District Treasury prescribed in Article 367, M. C. A. C. Volume II should be continued to be exercised and it should be seen that no chellan or voucher is missing and that the classification is correctly made.

Comptroller.

SUBJECT.—Instructions regarding the serial numbering of vouchers in Treasuries.

COMPTROLLER'S OFFICE, BANGALORE.

Circular No. 158—*T A D B, dated 24th July* 1929.

To—All Treasury Officers.

According to the instructions contained in this office letter No. 355—T A D B, dated 1st September 1926, regarding the serial numbering of all vouchers sent by the treasury with each list of payments, every voucher should bear two voucher numbers (one to be given by the paying treasury and the other representing District Serial number to be given by the District Treasury.) A District Serial numbering is necessary as the unit of accounts is the District and distinguishing numbers for the identification of each voucher are necessary.

2. It has come to the notice of this office that in some cases the numbering of vouchers is not properly done both by the paying treasury and the District Treasury. Sometimes the paying treasury notes its voucher numbers in the space allotted for the District Serial number and the District Serial number is given in some other space. In such cases, the Audit Office feels it difficult to easily find out the District Serial number. The numbering of all vouchers anew at the District Treasury involves extra work, which if it is possible to do so, has to be avoided. All the District Treasury Officers are also of this opinion and are agreeable to the suggestion of providing for distinctive numbering in Taluks and doing away with renumbering in Districts.

3. The following procedure is accordingly laid down for adoption from 1st September 1929, in accordance with the suggestion given by almost all the District Treasuries.—

(1) The vouchers of the District Treasury proper will be numbered serially as at present. But the Taluk Treasury Vouchers will in addition to the serial numbers beginning from units have a distinguishing letter of the alphabet inserted before the voucher number to indicate the particular Taluk as detailed in the annexed list. This indicative letter will be entered in all Records and Accounts in which voucher numbers are to be entered. Thus if 'C' is the number given to Arkalgud Taluk Treasury in Hassan District, its vouchers will bear Nos. 'C. 1.' 'C. 2.' and 'C.' 3.' and so on in all Records and Accounts while the Nos. 1 2 and 3 without any distinctive letters prefixed will relate to the District Treasury.

(2) This numbering will apply to all vouchers, whether charged in the lists of payments or other schedules, there being separate monthly serial numbers for each prescribed subsidiary register.

(3) In the abstract of payments of the whole District in respect of each Subsidiary Register prepared by the District Treasury, the total number of vouchers for the district will be worked out as shown below :—

Total number of vouchers	Numbers		Names of Treasuries	Amount
	From	To		
100 ...	1	100	District Treasury	
99 ...	A1	A99	Taluk Treasury A	
82 ...	B1	B82	Do B and so on	
Total ...	...	...		

(4) The treasuries should always bear in mind the special distinguishing Alphabetical letter assigned to them and see that no omissions or mistakes are allowed to occur.

(5) The District Treasury while working out the total for the district, should post the transactions of several treasuries in the order in which they appear in the enclosed list.

(6) Though the renumbering of vouchers by the District Treasury is discontinued, the check of the Subsidiary Registers of Taluk Treasuries by the District Treasury prescribed in Article 367, M. C. A. C. Volume II should be continued to be exercised and it should be seen that no chellan or voucher is missing and that the classification is correctly made.

Comptroller.

OFFICE OF THE COMMISSIONER OF INCOME-TAX IN MYSORE, BANGALORE.

Memorandum dated 8th August 1929.

The following Circular issued by me to all Incometax Officers is the State in published for general information :—

Dated 1st June 1929.

R. Dis. No. 8 of 1928-29.

Circular No. Lii.

Assessment of Income-Tax G. O. Nos. Fl. 5996-6005—I. T. 35-23-5 of 28th April 1924; Fl. 1891-1901—I. T. 5-25-2 of 12th October 1925 and this office Circulars Nos. 8 of 5—8th September 1924, 35 of 7th September 1926, R. Dis. 11 of 18th November 1920 and R. Dis. 19 of 20th December 1920.

In communicating the marginally noted observations of the Dewan made during the Budget Session of the Legislative Council of 1928, in regard to assessment of Income-tax, the attention of all Income-tax Officers is drawn to the instructions contained in the Government Orders and Office Circulars referred to above, in the matter of examining accounts and making assessments. The following principles on which the said instructions have been based should be clearly borne in mind :—

ASSESSING OF INCOME-TAX.

The rules will be administered as sympathetically as possible.

* * *

Instructions have been issued to departmental officers for furnishing reasons, and if they are not being followed, necessary action will be taken to enforce them.

(i) An assessee who has produced evidence in compliance with the notice or notices issued to him must be given a proper opportunity of preferring his objections in detail to the assessment that the officer proposes to make, and

(ii) there must be an adequate record of the objections raised and of the officer's reasons for allowing or rejecting them.

(iii) The order of assessment must contain the reasons in brief for the rejection of the accounts. This is the only way in which assessees can know of the defects and prepare their case for appeal.

Any disregard of these principles in making assessments will create an impression of unfairness in assessment which ought to be avoided. Apart from this, an appellate authority cannot properly deal with contentions advanced in appeal, if he is not in a position to ascertain from the record whether these contentious were considered by the assessing officer and on what grounds they were rejected. It is hoped that the instructions issued from time to time in the matter both by Government and the Commissioner will be borne in mind by all the Income-tax Officers.

S. P. RAJAGOPALACHARI,
Commissioner of Income-tax.

5. Boy candidates will not be admitted to the Mysore Middle School Examination *by private study* unless they send with their application form sufficient proof to show that they had sat for the English Lower Secondary or Middle School Examination (with English as First Language) in 1929, or before and had failed at the Examination. Teachers in recognised Schools may, however, appear for the examination by private study.

6. The printed column in the application form for non-attendance certificate in the case of private candidates for the Middle School and Lower Secondary Examinations of 1930, should be filled up before the application is sent to the Secretary, Local Examinations Boards. The Officers who sign certificates of non-attendance are requested to satisfy themselves that the candidate is a *bona fide* private candidate and to allow no scope for irregularity of any kind in this respect.

7. (*a*) Applications for transfer of centres in the case of the *Middle School Examination or the Lower Secondary Examination of* 1930, should reach the Secretary, Local Examinations Boards, Bangalore, on or before the 31st January 1930. 9. Heads of High Schools sending up candidates for the S. S. L. C. Public Examination will kindly note the following points in connection with the preparation and submission of applications for candidature :—

(*a*) Candidates should be asked to give their *correct* date of birth both in the applications and their S. S. L. C. cards as entered in the admission registers of the School without giving room for unnecessary correspondence in the matter. They should be advised to enter *only* the father's name in the S. S. L. C. card and application form and not the guardian's name.

(*b*) Heads of Schools should arrange the applications and the S. S. L. C. cards separately in the same order, firstly according to the Second Languages chosen by them and secondly in the alphabetical order under the several second languages. In no case should applications and S. S. L. C. cards be mixed up, as this will lead to confusion while checking the applications. The applications and S. S. L. C's of candidates who have been declared "Passed" in previous years should be separated from others and arranged in the same manner as noted above.

(*c*) A classified statement showing the names of candidates under "ordinary" and "for Supplementary certificates", the several Second Languages and additional subjects offered by them should accompany the applications for candidature.

10. The admission tickets of candidates who appear for the several Local Examinations of 1930 and onwards *by private study* will be sent direct to the candidates concerned by ordinary post to the address furnished by them in their applications for admission to the examination. Private candidates are therefore advised to enter their postal addresses clearly in their application forms. The Examination Office cannot undertake to note the changes in the addresses intimated after the applications are sent in. The Examination Office will not be responsible for non-delivery of admission tickets, etc., sent to the candidates concerned, in consequence of the incompleteness or inaccuracy of the postal addresses furnished by them.

11. In regard to the T. C. Examination of 1930, candidates who appeared for and failed in the Preliminary Examination under the old rules in previous years will be required to take the full Examination and they should pay the full fee for the Examination.

To ensure the easy identification of subscribers to the State Provident Fund and the correct posting of their subscriptions in the Provident Fund Ledgers, drawing Officers are requested to comply with the following instructions, while preparing statements of deductions on account of State Provident Fund, attached to Establishment bills (Form No. 48, M. C. A. C., Vol. I, 2. State Provident Fund):—

1. Account numbers of the subscribers should be correctly furnished and in the case of Police Constables, their number in the force should invariably be given to avoid errors in posting. In cash credit statements sent by the Treasuries, account numbers as well as the names and designations of the subscribers should be specified.

2. Whenever a new name not appearing in previous month's statement appears in any statement, the name of the District from which the person is transferred should be noted in the last Column (No. 7) intended for remarks. Similarly whenever a name appearing in the previous month's statement is for any reason—such as leave, retirement, transfer, etc.,—omitted in the subsequent month's bill the reason for such omission should be entered in the last Column (No. 7) intended for remarks.

3. Credit statements on account of Education and Military Departments should clearly mention the names of the institutions, as well as the pay of the officials concerned.

4. When manscript forms are used, care should be taken to copy out all the Columns and the name of the Fund should be boldly written on the top in red ink, so that there might be no misclassification in the Treasury accounts between the different fund heads.

BANGALORE, THURSDAY, OCTOBER 31, 1929.

PART IV.

NOTIFICATIONS BY THE HEADS OF DEPARTMENTS.

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE AT BANGALORE.

Dated the 24th September 1929.

At present under Order XXI, Rules 32 and 33 of the Code of Civil Procedure, 1911, a decree for the restitution of conjugal rights may be enforced by detention in the Civil prison of the party wilfully failing to obey it. But it is open to the Court to order that the decree shal be enforced only by attachment of property and not by detention in prison.

In British India in accordance with the tendency of modern legislation against sending women to Jail in civil matters, this discretion has been taken away and detention in prison as a method of executing a decree for restitution of conjugal rights has been abolished. Similar legislation was urged by the Representative Assembly in its Dasara Session of 1928.

The following draft rules, which it is therefore proposed to make in exercise of the powers conferred by section 122 of the Code of Civil Procedure, 1911 are published as required by the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft rules will be taken up for consideration by the Chief Court on or after the 25th November 1929.

Any objection or suggestion which may be received from any person with respect to these draft rules before the date aforesaid will be considered by the Chief Court.

Draft Rules.

In Sub-rule (1) of Rule 32 of Order XXI in the First Schedule to the Code of Civil Procedure 1911, after the word "enforced" the following shall be inserted, namely :—

"In the case of a decree for restitution of conjugal rights by the attachment of his property or, in the case of a decree for the specific performance of a contract or for an injunction."

2. In Rule 33 of the said Order.—

(*a*) in Sub-rule (1), after the words "passing a decree" the words "against a husband" shall be inserted, and for the words "shall not be executed by detention in prison" the words "shall be executed in the manner provided in this rule" shall be substituted; and (*b*) in Sub-rule (2), the words "and the decree holder is the wife" shall be omitted.

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE AT BANGALORE.

No. P. 15-4—28-29, *dated* 6—9*th November* 1929.

Brief review on the working of the Process Establishment of the several Munsiffs' Courts in the State during the quarter ending June 1929.

PART I.

1. There was no change in the number of Nazaraths (24) and of the men employed therein (165 Amins and 472 Peons). The courts were closed for six weeks during the quarter on account of the Annual Summer Vacation.

2. The Receipts and Expenditure were Rs. 36,149-7-0 and Rs. 32,817-3-0, respectively resulting in a net saving of Rs. 3,332-4-0, as against Rs. 10,093-13-0, in the corresponding quarter of the previous year. The fall in the savings is due to the fact that the expenditure during the quarter under review included the enhanced pay of the staff under the revised scale of pay.

3. The number of processes served were 47,493 as against 49,880 in the corresponding quarter of the previous year. The averages for an amin and a peon respectively were 49·9 and 105·79, the prescribed minima for an amin and a peon being 37·5 and 100 respectively.

4. It is satisfactory to note that the percentage of personal service for all the 24 courts taken together was 75·29 as against 74·2 in the previous quarter and 73·7 in the corresponding quarter of the previous year.

It ranged from 88·9 in the Munsiff's Court, Kolar Gold Fields, to 54·7 in that of Dodballapur which is the only court that showed less than 65% as shown below :—

For the existing conditions 1 *to* 5, *substitute the following* :—

(1) These scholarships were founded by Mr. B. S. Krishnaswamiengar, retired District Judge, 3. Seshadri Road, Bangalore, to perpetuate the memory of his most beloved mother Garudamma.

(2) The endowment consists of a sum of Rs. 6,000 invested in the 6¼ per cent Mysore State Loan, and the interest thereon will be awarded as 2 scholarships each of Rs. 187½ a year, to *poor* Hebbar Srivaishnava students taking up the B.E. course in the College of Engineering, Bangalore, under the following terms :—

the fund should be given as prizes in equal sums to the candidates who take the first place in the final examination (B.E. Degree) in Engineering in the Civil, Mechanical or Electrical Branch.
